

## **Supplemental Educational Services (SES)**

Supplemental Educational Services (SES) is a part of the Federal *No Child Left Behind* Law. SES provides free tutoring services for eligible students attending a Title I *School In Need of Improvement*. These services can be provided before school, after school, and/or on weekends. These services will be in addition to the instruction that the student receives during the school day.

To be eligible for SES services, a student must attend Lincoln Street School, and meet some additional requirements. Parents will be notified if their child is eligible to receive SES services.

The district will provide the parents with a list of state approved SES providers (Supplemental Educational Services (SES) Approved Providers School Year (2012 - 2013)). Providers may provide services at their place of business, a library, community center or other public place. In-home tutoring is also available from selected providers. Other providers allow students to access their programs online from the student's home. These providers have agreed to provide services that are consistent with the instructional program of the district/state. They have also agreed to provide the parent and teacher(s) information on the progress of the student.

Please note that if it is determined that there are not sufficient funds to provide services to all eligible students whose parents request the services, the school will provide services on a first come, first served basis.
